## EDUCATION

---

**Dharmsinh Desai University, Nadiad**

*Bachelor of Technology in Information and Technology (7.81 CGPA)*

**September, 2022 - May, 2026**

*Nadiad, India*

**Vidhyut Board Vidhyalaya, Vadodara**

*11-12th Science (Maths) (86.66%)*

**August, 2020 - May, 2022**

*Vadodara, India*

## PROJECTS

---

**QuizRush** | *Spring Boot, Spring Websocket, Stomp, ReactJS*

- QuizRush is a real-time, interactive quiz platform designed for both hosts and participants. It allows users to create, manage, and participate in live quizzes.
- Supports features like real-time question delivery, answer submission and leaderboards.
- Implemented secure authentication using JWT and Spring Security with role distinction (Host and Participant) and protected API access.
- Designed efficient entity relationships using JPA and PostgreSQL to manage quizzes, questions, and user sessions reliably.

**The Shopper's Stop** | *ReactJS, NodeJS, Express, MongoDB*

- Developed a full-stack eCommerce platform using the MERN stack with authentication, cart, and order management.
- Integrated an ML-powered image-based search feature for product recommendations.
- Implemented an admin panel for product and order management.
- Used JWT authentication for secure authentication with role based authorization of Admin and Customer.

## ACHIEVEMENTS

---

- Achieved **2-star** rating on [Codechef](#)
- Achieved **4-star** rating in (**Problem Solving**) on [HackerRank](#)
- Participated in **DU HACKS 4.0** held at Dharmsinh Desai College, Nadiad.

## SKILLS

---

- **Languages:** C++, C, SQL, JavaScript, Java
- **Technologies:** ReactJs, Spring MVC, Spring Boot
- **Course Work:** Database Management Systems, Object-Oriented Programming
- **Tools:** Git, Github, Postman
- **Soft Skills:** Leadership, Team Work, Time Management, Effective Communication
